

WORLD WATER DAY

2021

VALUING WATER

Access to water can be difficult for some people

**We need water daily to
stay healthy.**

**Water refreshes us while
at play.**

Some children travel long distances for clean water.

Storing rain water for other uses helps to save water.

**Our animals
must have
clean water
too!**

Water is important for growing food.

Water is home to fish we eat for food.

We need water to prepare our food.

Water can be used as a power source.
